JUST PRAISE FOR THE JEWISH QUARTER.

From The Jewish Messenger.

We know that the Ludlow-st. section demands improvement, but certainly, with all the faults of the solion, the worst crities do not decry the residents as disorderly or criminal; they are characterized as an disorderly or criminal; they are characterized as meleanly, peculiar, foud-voiced, ill-manuered. But the enty is not troubled by them to fill its prisons, its hospitals, or its morgue. They are better in all respects than the dedizers of the river districts, of Cherry-st., portions of the Eighth Ward, and elsewhere, that the medical inspectors have not yet visited, and that so largely burings the city with maisfactors, beggars and objects of almsgiving. The gheatto section demands radical change, but it is not alone in fault, and the newspapers do a swrong in harping upon the one string of Jewish peculiarities until unturking readers—whose name is lemon—justify their prejudices by what they read in their favorite journals.

(PROM AN OCCASIONAL CORRESPONDENT OF THE TRIBUNE.) RICHFIELD SPRINGS, Aug. 14,-The Rev. J. B. Rylance, D. Most of the gentlemen interested in this important conference are expected to be here before Sunday.

There is of course increasing discussion of the prospect of the Republican Convention meeting here as the time for a decision of the question approaches. Private advices have been received which indicate that the chances of Richfield ings being named are more numerous and stronger shan they were. It is certain that a more delightful place than this could not be found, or one with better hotel accommodations.

The Spring House parlors were crowded on Saturday evening to listen to a planoforte recital by Mme. Schiller, who presented an attractive programme, rendering when nuch power, sweetness and spirit a variety of music by Dhopin, Schubert, Liest and other composers.

The races on Saturday are beginning to attract atten-

Hen. The entries guarantee a day of excellent sport.

The visiting population is excited over the approaching fancy ball, which occurs at the New American to-morow evening. A well-known costumer from New-York has arrived and makes a varied display of dresses, jackoats, bats, caps, swords and other paraphernalia in to be the prevailing tints. The parlors in which this unique exhibition is held have been througed for past two days with pretty girls, vivacious matrous

unique exhibition is held have been througed for the past two days with pretty girls, vivacious matrous and blushing boys; and selections have been gayly made. A large anaber of the costumes have been gayly made. A large anaber of the costumes have been gayly made. A large anaber of the costumes have been taken; several unique combinations are, it is said, in process of construction in the secrecy of private rooms, and there are a number of club men now on their way from New-York to participate in the flue, who will proceasly bring starting met opolitan concoctions, so that there is a prospect of a successful and enjoyable affair. In strict accordance with the spi it of liberty which pervades the place, masks and dominos, full-dress and fancy costumes will all be welcome on the floor.

There is no doubt that the matrimonial results of the Richfield Springs season will soon assume proportions equal to those of Newport. From the present aspect of affairs several engagements will be announced in a very where, on the lawn, along the streets and plazzas, and in the partors, and always arranged in fascinating costumes. Indeed, the preponderance of blooming girls and athletic young men is one of the most striking features of the place just now. "Do you see that couple!" said an old lady to me this morning, indicating a pair lovingly seated together ours sofa in the Spring House parfor. "Well, they met here last summer, fell in love with each other, and were married in the winter. Why, you would think they were in the dirst month of their honeymour instead of their sixth." From which speech igathered that the old hady's belief was that the atmosphere at Richardel Springs not only had power to coax the flower of love into existence, but was especially havorable to its growth and development. Such an example of youthful mairimonial felicity cannot fail to recrease a fascination over those who are trembling on the brink.

heartily applauded.

The annual meeting of the Chautauqua School of The ology was beid at 9 o'clock, F. H. Root, of Buffalo, presiding. Professor A. A. Wright, of Boston, reported all the departments of the school for the supplemental study of theology by pastors and others in good working order. Between 300 and 400 ministers to various parts of the country were now pursuing these supplementary studies- and the number was constantly increasing. The officers of the Chautauqua School of Theology for the new year were elected as follows: President, F. H. Root, of Buffalo; secretary, S. J. M. Easton of Franklin, Penn.; treasurer and dean of the faculty, the Roy. A. A. Wright, of Boston; Department of Dears, Dr. William A. Harper, Chicago; Alfred A. Wright, Boston; Dr. S. T. Churchill, Andover, Mass.; Carroll D. Wright, Boston; and Edmund H. Bennett, LL.

The Rev. Dr. W. F. Mallalieu, of Boston, lectured on the unity of the human race. He asserted that certain cientists rush into theories antagonistic to Christianity and foolishly declare that there is no God. If hypothet ical science be God, then Jehovah must abdicate, but God as made of one blood all races of men, and Darwin says that all races resemble each other in a multitude of that all races resemble each other in a multitude of points, making it evident that they are of common origin. Memorial services were held in honor of the Chaulauqua workers who had died during the past year. Professor Wright lectured at 4 o'clock on "Standard Scales for Weighing Great Words," and Mrs. B. T. Vincent, of Pottsville, Penn. taught the primary teachers at the same hour. The Rev. E. Dilworth, of Chaulauqua, gave a class drill, and a round table exercise was given at 5 p. m.

THE PRESIDENT'S CAMP 'LIFE,

TERRY'S LAKE-CROW-HEART BUITE-" SHOSHONE

DICK. CAMP STAGER, ON TERRY'S LAKE, Wy., Aug.

12. via Fort Washakle, Aug. 13.-It was determined last night to move the camp this morning a few miles to a point where there would be more abundant grazing for the horses and mules. Accordingly at 6:30 a. m. every one was in the saddle, and started up the valley on the right bank of Wind River. At the end of an bour's travel the Wind River was reached, at a point where it passes through masers of rocks known as the "Red Buttes.

The first crossing was made by fording in a diagonal direction up-stream, where the water was so rapid in its flow that one's neighbor seemed to be moving up the river with the speed of a renaway horse.
Soon after, by a short ford, the river
was recrossed, and at the end of an
neur the western boundary of the Shoshone reservation was reached. From this point travel was a very inter-esting but not so difficult journey, over a series of lofty divides, to escape the precipitons banks of small streams flowing from the mountains into the river. In descend-ing one of these it was necessary to dismount and lead the borses. On the highest divide the last look was taken at the great landmark "Crow-Heart Butte," thirty miles away, which had been in view since leaving Fort Washakle. Wallowing Buffalo, one of the Arapa-hoe guides, said that it got its name after a great battle between the Shoshones and Crows many years ago. The victory of the Shoshones was celebrated by burying the hearts of the dead Crows on the summit of the butte. After a ride of twelve miles the expedition has reached

the banks of some beautiful lakes, which are called after Captain Terry, formerly an officer of the army, but now Captain Terry, formerly an officer of the army, but now owning large cattle herds on the range near by. The lakes are said to abound in large trout, and the fishermen expect to spend to-morrow usuing. Game is not very abundant in this beignborhood, but the hunters yesterday brought in two antelope, and a few meantain grouse were killed on the march to-day. "Shoshone pick," a waite member of the tribe, who was captured probably from an emigrant train when so young that he has lost all recollection of the fact, is one of the Indian party. This camp is mained "Camp Stager," in honor of General Anson Stager, of Chicago.

FAILURE OF BALLOU & CO.

the New-York house. It was as much of a surprise to the Boston firm as to the public generally, and at first it was difficult to understand. Later information, however. stated that the assignment was due to the failure of their numerous customers to advance the margins needed to carry their stocks. The firm has for a long time been carrying a large amount of all classes of securities, and the "slump" of the past few days has been greater than they sould withstand. It was at fire intimated that the failure was the result of the recent troubles in the Toledo, Cincinnati and St. Louis Railroad Company's affairs, in which the house is very largely interested, two of the members being di-

rectors of the road.

This was, however, authoritatively denied by D. H. Darling, one of the members of the house, and the failure is attributed by him solely to the cause given above. He was, he asserted, perfectly astounded upon receiving the dispatch from Mr. Ballou announcing the assignment, and said that if he could have had an opportunity conferring with Mr. Ballou he would certainly have advised against the suspension, as he believed that it was not necessary. The Boston house, he claimed, was all right, but it of course would now have to go down with the New-York concern.

securities and cash amounting to fully \$1,000,000 surplus over and above all liabilities, and he could not understand how there was any necessity for suspension. He was as anxious to get at full particulars as anynody, which the New-York house would undoubtedly furnish as soon as possible. He could not tell how much the inbilities were, nor what the amount of assets were at present.

suspension was occasioned by the refusal of the banks ofurther cerufy the firm's checks, but that the emoarrassment was probably only a temporary one. The firm had been a large holder of San Pedro, Toledo, Cincinnati and St. Louis and Mutual Union stocks, and the suspension was due in a large degree to the decline in

The Transcript says of the fature of G. W. Ballou & Co. that it came us a thunderboit upon the community here. It will now be seen that Ballou not acted manfully and stood by his friends, and if the house goes down it goes down having made the heaviest subscriptions and largest outlays of large and money to push through enterprises identified with his name. One of the feading Roston bank presidents said to-day: "I never had any dealings with Ballou or his house, and never made or lost money in his enterprises, but I can say that if all the Delphos people had done as much as Ballou to sustain that enterprise it would not now have been in the hands of a receiver."

people had done as much as Bailou to sustain that enterprise it would not now have been in the hands of a receiver."

The Boston house was carrying the Toledo enterprise, while the New-York house was engaged more 'argely lo stock markets, mostly it is oelieved in a commission business. The huying and soiling of 16,000 shares to day ander the rule for Ballou's account showed either for himself or his customers that he was astrole the market, "long" on Oregon Transcontinental and Lackawanna, and "short" on Northern Pedide stocks. This is the present dilemma of the average Stock operator. A month ago this New-York house was long by 15,000 shares of stock and was accounted a firm believer in higher prices. It was also said that with the Seney and Brice party they were "builing" the market. The "short" sales were probably of recent origin. No estimate can be made of the liashfiles, out it is generally assumed that they cannot be extensive and that the ultimate losses must be comparatively small. The Boston house, which was carrying the Depaces ecurities, had about \$200,000 or \$300,000 on tails account, \$119,000 of which was in "Incidental Northera, \$16,000 in Layton bonds, \$70,000 on account of the Southern Ohio Coal Company, and \$14,000 on account of the Delphos trust.

DOMESTIC DISCORD LEADING TO A TRAGEDY.

TRENTON, N. J., Aug. 14 .-- Charles A. Knoblach, a confectioner here, had his wife arrested yesterday for assault. At the hearing in the evening Mrs. Knobiach told a pitiful story of the life she had led for some time She sand Knoblach was a widower with two children when she married him about a year ago. These children caused her much annoyance, and when she undertook to chastise them Knoblach interfered. He frequently beat her, and treated her at all times with extreme cruelty. The police justice held her in her own recognizance for her appearance at court. She and her husband then

her appearance at court. She and her husband then went away, but instead of going home they wandered in the streets indulging in manual appraudings.

At midnight the bridge-tender at the Perry-st, crossing of the Delaware and Raritan Casai heard a spisso in the water and found Knoblach swimming about, and maily rescued him. Knoblach stated that he had been pussed in by his wife, who then immped in herself. She had sunk to the bottom. The b dy has since been recovered, and Knoblach has been reld to await the result of the corner's loquest. Mrs. Knoblach about three months ago attempted suicide by taking landanum. The nequest win be held to-morrow. The post-mortem examination this aftermoon revealed no marks of violence. There were slight abrasiots on one of the arms and a deep scratch over the laft eye. The sentiment is pretty general that Mrs. Knoblach tried to commit suicide and pushed her ausband into the canal, jumping in after him.

WEARY OF LIFE'S BURDENS.

A DISAPPOINTED ENGLISHMAN'S LETTERS-A BAKER'S WIFE OFENS THE VEINS OF HER ARM.

A North River boatman, who was rowing near Pier No. 1 before 2 o'clock yesterday morning, found the body of a man about sixty years old in the water. He towed it ashore and informed the police. In the pockets of the man's clothing were found papers which furnished all the information desired papers which furnished all the information desired about his identity and the cause of his death. One note, written on the back of an advertising circular and addressed to "E. Archard, Albion Society, No. 326 West Thirty-second-st.," was as follows:

The society has been good, but that's not to get me home. Am very sorry I came to this country, but here I am, and can't do anything. If Featherstone had paid me what he agreed, I should have had enough to get home. Please forgive me, and hope to most again in another world. Your troubled husband, J. E. CARTER. II.

Coroner Merkle gave permission to an undertaker to prepare the body of the Engishman for burial. He also directed that a letter be sent to Mrs. Carter in England, informing her of her husband's death.

Mr. Heuttner was away from home at the time. The woman had been suffering from violent pains in her head, and she had said to her irrends several times that she feared she was becoming insane. She was forty-three years old and childless. To a physician who was attempting to cure her headaches she said on Sunday that she would not require his services much longer.

Mrs. Abbie Schaub, of No. 150 East Houston-st., received a telegram early in the morning informing her of the suicide of her uncle. S. R. Whelpley, in Albany on Monday, and she started for Albany immediately to make preparations for a funeral. Mr. Schaub said that Whelpley was fifty-eight years old and immarried. He was a traveiling salesman for Humphreys & Co., manufacturers of homeopathic medicines in Fulton-st. The firm had the utmost confidence in him. The cause of his suicide was chronic illness. Two of his brothers are living in Connecticut.

A YONKERS IRISHMAN GONE.

Michael Carey, for a number of years an officer of the Montgomery Club of the Clan-na-Gael Order of Yonkers, disappeared suddenly from that city on Sunday afternoon and has not been heard from since. His absence has created much surprise among his friends and acquaintances. For more tuan of con years Carey has held a ances. For more tuan ofceen years Carey has held a position as superintendent of the buildings of the Yonkers Gas Lent Company and has always been held to high esceem by the officers of that company. Various reports are in circulation as to the cause of Carey's disappearance. The rumor which has gained most ground is to the cause that he has been selected as a hearer of important messages from Irish-American societies to societies in Ireland. A triend of Carey, on being questioned in researd to the matter, said that some time since Carey had declared his intention of soing to Ireland, and in his opinion had been making preparations for soing-time to that end. At the office of the Gas-Light Company his books and accounts were reported to be in oxcellent order. He had drawn his salary on the Saturday previous to his departure and is said to have had an amount of money lair by, all of which he took with him, leaving his family destitute.

THE POSTAL GUIDE CONTRACT. THE POSTMASTER-GENERAL TO STOP AN ABUSE.

[BY TELEGRAPH TO THE TRIBUNE! WASHINGTON, Aug. 14 .- The Postmaster-General has been investigating The Postal Guide, a publication issued annually and monthly by a Boston publishing house under a contract with the Post-office Department which gives it a semi-official character. Congress appropriated \$29,000 for the publication of The Guide, but it has been costing much more. The contract with the Boston publishers provided for a certain number of pages not to exceed 624 in the annual Guide, not 36 pages in the monthly Guide, to be paid for at a stipulated price, and all pages in excess of the above number to be paid for at the rate of \$37 50 per page. The contract was so drawn as to make it the plain interest of the publishers to have the work padded out so as to make the greatest number of pages possible, the extra pages being paid for out of an appropriation for adver-tising.

tising.

As a matter of fact for a long time past the number of pages in the annual and monthly Guide has greatly exceeded the contract number, involving a considerable outlay for the publication of matter of little or no importance. Fig. Postmaster-General Bass ordered a large reduction in the volume of matter to be published and that all copy for future issues of he Guide be submitted to his chief clerk for examination and revision before being sent to the publishers. The saving will amount to from \$20,000 to \$30,000 a year.

RELIEVED BY THE CIVIL SERVICE LAW. CONGRESSMEN FREED FROM IMPORTUNITIES IN A

[BY TELEGRAPH TO THE TRIBUNE.! Washington, Aug. 14.—Several Congress nen who have recently visited Washington have been asked if the operation of the Civil Service law has re leved them sensibly from the importunities of office seekers, and all have replied in the affirmative. Repre entative Ryan, of Kansas, said to-day that he had experienced great rollef, and he finds that the same is true of department officials. Mr. Ryan is of the opi ion that if the law is faithfully and judiciously administered it will not only relieve the legislative and executive departments of a great burden, but will also benefit the public service.

He spoke of one effect of the law which he had board rather freely criticised—the placing in competition of young men fresh from school with those of greater experience and more mature years. Men belonging to the atter class, he thought, might hesitate long before incarring the danger of a failure, which they would regard as a disgrace, but which

they would regard as a disgrace, but which a youth would not take much to heart in his own case. Mr. Ryan says he has found among Government officials an earnest and apparently slucere desire to observe and execute the new law in letter and spirit, except in one case, which had first come to his notice to-day.

"I find," said he, "that a faithrul and efficient clerk in the Post Office Department recently suffered a reduction of his salary from \$1.600 to \$1.200 a year oy the First Assistant Postmatier-General, Mr. Hatton, in order that he might promote one of his relatives to a better place at a larger salary. That I regard as a gross violation of the sapirit, if not the letter, of the Civil Service act. I have no personal or political interest in the man whose pay was reduced, but I happen to know that he is a most efficient and fattoful clerk. I have always regarded Mr. Hatton as an excellent officer, and his zetion in this case is inexplicable to me."

ber of the law firm of Marston & Cobb, died in this city to-day after an illness of six week. He was sixty-one years old.

Coney Island yesterday was the abode of peace. Even the breezes, which usually romp so merrily with the breakers, seemed to forget their pastime and were lost before they reached the shore. The bands at West Erighton exchanged the intexteating real for sen timental airs and the life-ropes bobbed lazily in the surf without their customary strings of bathers. Everytning was suggestive of that in ease degree of dulness which has fallen like a pall upon the Island so often this season. The only place where there was a sign of interest manifested in the buzz and hum of the work-a-day world manifested in de ouze and dum of the work-a-day world was at the office of Justice of the Peace Wulliams. When asked if he desired to make any statements regarding Unief of Police McKane's assertion that he would not convict pickpockets, the justice repided: "Not a world be says is true. His charges are all false." Further than making a general denial Justice Williams would not vecture.

ASKING FOR THE REMOVAL OF A PRIEST,

The parishioners of the Rev. Father Florence McCarthy, pastor of St. Cecilia's Church, Brooklyn, met in Temperance Hali on Monday night to take action in regard to the recent seandals with which the patter has been connected. The first was an action for assault brought against him by a young lady organist employed at his church, named Maggis Cronin. She was discharged by the priest and she alleged that it was because she repelled his insulting propositions. Her parents denounced him in the church, were arrested and gave ball for trial. In the meantime, they have a cross-suit pending against Father McCarthy for false imprisonment, and the girl has also a suit pending against him. Next a servant-girl named Katy Dixer accused the pastor of brutal assault. He brought a counter-charge against her of stealing an accordion and some other articles from his house and taking money collected in the church. Father McCarthy was ac-quitted of the charge, but the servant, who was also acquitted, has brought suit against him for false im-pressures.

The parishioners felt that the usefulness of their pastor was impaired because of these scandals, and a committee of seven, headed by William Blanchfield, of Herbert-st. was appointed to wait on Bishop Loughlin to sak the removal of the priest.
